It's Blue

a Collection of 12 Block Patterns

This collection was a departure from my usually predictable red and green color scheme. At least eleven shades, from light to dark blue, were used throughout these twelve 20" album blocks. Inspired by the "Blue Onion" china pattern my mother cherished, each of these stylized motifs are set into a center octagon frame and subtly enhanced by entwined reverse feather sprays.

For those of you who enjoy pastel colors make sure to check out Mary Anne's version of this quilt shown on the website- www.ornamentalappliance.com.
